

“Technosphere of EVs, Charging Infrastructure, Power Demand Estimation & Pricing Issues”

4th February 2019, Vidyut Niyamak Bhawan, Vibhuti Khand, Gomti Nagar Lucknow

Dear Sir/ Madam,

U.P. Electricity Regulatory Commission is organizing a day-long conference on **“Technosphere of EVs, Charging Infrastructure, Power Demand Estimation & Pricing Issues”** on **4thFebruary 2019** at Vidyut Niyamak Bhawan, Vibhuti Khand, Gomti Nagar Lucknow. There will be four sessions namely-

- 1. EVs in India – Sustainable adoption of technologies & likely business models.**
- 2. Charging infrastructure readiness, evolution & swapping of batteries and changing skill test.**
- 3. Tariff, pricing & regulatory intervention-strategic roadmap.**
- 4. Will electric vehicles break the grid? – Demand Estimation for Uttar Pradesh on a time horizon of 2030.**

I am writing to cordially invite you to attend and actively contribute to the conference deliberations. Your participation will not only enrich the deliberations, but it would also go a long way in helping us to achieve the objective of the conference. You are requested to submit the research paper/presentation, if any, by 15thJanuary 2019 on both the E-mail addresses viz sanjay1965m@gmail.com and vikas@uperc.org. We propose to select 4-5 speakers for each of the above 4 sessions and would be happy to reimburse their economy class airfare to speakers/presenters. However, it is pertinent to mention that only papers will become part of the compendium to be unveiled at the workshop. The draft programme is also attached for your ready reference.

I sincerely hope that you will consider this request favorably and look forward to receiving your kind confirmation.
